and to the amount of a million and a half of dollars, to pay for begging and rope imported to cover our cotton crop. For many years those articles have been monopolized by speculators, by means of leans obtained from banks, and the price has been usually double that of former years. To counterset this system, our planters during the last year have used large quantities of Scotch, German, and India bagging. Experience has demonstrated that bagging Experience has demonstrated that bagging fabricated out of cotton according to the state of the annual payment thereof. I therefore remained that bagging fabricated out of cotton according to use a dollar bagging of a law year have used a law out inferior, stained and tracky cotton. The principal objects to its use, has the chiral principal objects to its use, has the chiral principal objects to be torus by guite the containing the manual payment thereof. It is desirable to the use of the principal objects to its use, has the chiral principal objects to be torus by guite the containing the manual payment the passage of a law authorizing the commendation principal objects to its use, has the chiral principal objects to be torus by guite the containing the conta mand would are for usery thousand bules of parties of users the large of the principal objection. The principal objection is a subject to the use of the user of the subject to the use of the user of
